Flashcards for Medical Response to Adult Sexual Assault, 2E

Flashcards for MRASA, 2E ISBN 978-1-936590-95-7 \$15.00 eBook

This set of electronic flashcards was created to accompany *Medical Response to Adult Sexual Assault, Second Edition*. With students in mind, STM Learning staff compiled a comprehensive array of sexual assault terminology to enhance understanding of the core content of the text and fashioned the flashcards in interactive e-pub format for easy use. The deck includes over 140 interactive, color-coded cards and is organized into 5 categories: Anatomy, Injuries, Forensics, Psychology, and Miscellaneous. These categories cover the identification of anatomic terms, physical injuries, the language used in legal and public health contexts, and other assorted medical and psychological vocabulary pertaining to sexual abuse.

The second edition of *Medical Response to Adult Sexual Assault* offers the best in evidence-based research on examination, diagnosis, and treatment in cases of sexual violence. Survivors of sexual assault face a number of unique challenges on the path to physical and psychological recovery and in navigating the investigative and judicial processes related to their traumatic experiences. Professionals who work with these survivors require informed expertise in order to support their patients' safety and personal well-being.

Orders are billed for postage, handling, and state sales tax, where appropriate. Prices subject to change without notice. November 2020
