Forensic Pathology of Child Death Assessment

Forensic Learning Series

Mary E. Case, MD

184 pages, 195 images

<i>Forensic Pathology of</i>	ISBN 978-1-953119-05-6 \$90.00 Print
<i>Child Death Assessment</i>	ISBN 978-1-953119-06-3 \$75.00 eBook

Forensic Pathology of Child Death Assessment is a concise educational text based on Dr. Mary Case's groundbreaking, comprehensive textbook. This new assessment is a self-directed evaluation for forensic pathologists, medical examiners, pediatric doctors, members of law enforcement, social workers, juvenile court employees, and any others who work as child advocates.

This workbook guides readers through the historical and contemporary understandings of the causes, manners, and mechanisms of child death. This text concludes with a comprehensive test section that gives readers the opportunity to apply and demonstrate their newfound knowledge by engaging in critical analysis of case studies with detailed diagrams, autopsy reports, and images.

Features and Benefits:

- 30+ case studies
- Authored by a nationally recognized expert
- Ideal for self-directed study or group instruction
- Portable and convenient
- Written for medical examiners, coroners, and forensic pathologists at every level of experience
