260 pages, 144 images, 32 contributors

*Sexually Transmitted Infection*

ISBN 978-1-936590-85-8 . . \$95.00 Print

ISBN 978-1-936590-86-5 . . \$80.00 eBook

The *Sexually Transmitted Infection and Disease Assessment* is a self-directed evaluation for medical professionals to learn, apply, and demonstrate competency in the evaluation of sexually transmitted infections. This assessment features an anatomical review, an overview of sexually transmitted infections, case histories, and identification and treatment activities.

Readers will have the opportunity to assess case histories and accompanying full-color photographs for reference. Each case history includes a series of evaluation exercises designed to refine and reinforce readers' skills in sexually transmitted infection identification, treatment recommendation, and follow-up care.

#### Features and Benefits:

- Case histories and corresponding exercises in sexually transmitted infection evaluation
- Authored by internationally recognized experts
- Ideal for self-directed study or group instruction
- Portable and convenient
- Written for medical practitioners at every level of experience, from novice to advanced

Orders are billed for postage, handling, and state sales tax, where appropriate. Prices subject to change without notice.
