Child Abuse Pocket Atlas Series

Volume 5: Child Fatality and Neglect

*Randell Alexander, MD, PhD
300 pages, 646 images, 11 contributors*

*CAPA Volume 5: Child Fatality.. ISBN 978-1-936590-62-9 \$75.00 Print
ISBN 978-1-936590-67-4 \$65.00 eBook*

This new pocket atlas, part 5 of an ongoing series on child abuse, is designed specifically for professionals involved in the investigation of child death, both intentional and unintentional. Readers in law enforcement, medicine, and other readers professionally involved in child death investigation will find this convenient resource essential to their work in the field.

Over 600 full-color crime scene photos, reenactments, and photos taken in post-mortem examinations and corresponding case studies written by expert investigators illustrate a variety of abusive and accidental causes of death, including neglect, burning, drowning, natural causes, and shaken baby syndrome. This text is a vital tool for any and all members of the child fatality review team, who will benefit both from its comprehensive content and from its convenient and accessible design.
